Translator note

After long time I decided to translate this Toradora ch! cuz I get bored of waiting for new ch of my fav manga and annoyed seeing English translations stoped after ch49!,///

Other reason was I find out this series will be continued and there will be new ch!)) YEY!!! and while googling I find this Spanish edition /and cuz I know Spanish there were no more excuses not to do it!x,x))

So I decided to give it a shot!XD ,))) thinking I could try translating few pages a day! and surprising I was able to translate this ch in two day!)) guess that's good thing about manga with few pages! Lolz ,))

Hardest part are fight between A n K! and argue between A n R aren't much easier! (Btw in Spanish all argue sound like soap opera! Making this even funnier!))Lolz guess that's thing with Spanish! But then again I can thank all those for my lessons!^^ ,) Anyway I have novel for reference and noticed text is almost identical!)) so if you didn't read it already go do it now! You'll thank me later!,))

And I was happy to see this ch is in v5 of novel so there is 5 more and we're somewhere in the middle with manga!)) and there is so many good scenes from novel you'll wish to see in manga! much better than anime! ,))

So I'm doing this for all good manga lovers!)) and I can tell you my karma points are already rising! As I already get good news and business offer! lolz now that's good reason to do this!)) and I plan to do it as long as those Spanish ch goes!^^ lolz ,)

Now I would ask you to help me with scanlations, cleaning, translations, typesetters/btw I'm now much more appreciating this job!x,x you wouldn't believe how much time it takes me to set text right!x,x facepalm and I was using mspaint for this cuz my GIMP use to crashes at random!x,x and I hate PS! Cuz im for free software and free access to information! Including art!x,x enough of philosophy!,)) no one probably won't bother to read this text anyway!)) and for the art here that take your attention it's from novel! as it would probably take to long for me to paint something decent! Anyway it was pleasure doing this! Hope you like it!)) I know I do!))

Don't forget this is fan translation made by fans for fans! and not for commercial use! don't sell buy or print it! but feel free to upload it everywhere!)))

And if you like it please support your fav mangaka buying this when you get a chance!)) go buy it now! Or start bothering publisher to bring new ch soon!^^ XD

And if you have some comments feel free to post it here! I'll read it if I remember where I uploaded this!^^ hm,,, time shift joke! x.x lolz

Till next!

The limited Chanel coral one? Though it looks a bit too bright, or maybe the RMK pastel violet one? It'll suit your pale skin better. Or perhaps the M.A.C. transparent one to let your lips sparkle and keep its original colour. Hmm--- But that's too modest, not really my taste. We can also use the NARS multifunction lip gloss, but your lips would look too dry...
Hmm... Should we use Chanel? Or NARS? M.A.C. Dior? Or meybe we should just use the cheeper local ones?

/Just for the records pages no 1 2 3 7 8 n15 are translated from scratch/
